ACT is a State-Recognized, Registered Pre-Apprenticeship Program with the goal of delivering high school students to graduation with a bright future in construction careers. Beginning in their sophomore year and continuing through their senior year, students learn the basic trade skills and safety practices needed to work in the industry. Beyond classroom learning, students can earn a paycheck while receiving on-the-job training from a local business and industry mentor.

For more information visit: www.ACTCAREERS.com

ACT Is sponsored by the construction industry and the public schools of Lake, Orange, Osceola, Polk, Sumter and Seminole counties. ACT does not discriminate due to race, color, national origin, sex, gender, religion, age or disability
